

EU Digital Framework for Sign Languages

ABOUT US

Started in November 2020, the “**EU Digital Framework for Sign Languages**” is an Erasmus+ co-funded project aiming to develop a comprehensive and innovative language framework in **International Sign**, related to the semantic domain of **digital and ICT**. The framework is set to enhance the **accessibility** of deaf workers and deaf VET students to professional settings, favoring their **integration** and a **fair and equitable treatment**.

The consortium is made up of six partners from five different EU countries:

P0 - *Turin Institute for the Deaf* (IT)

P1 - *Equalizent* (AT)

P2 - *APEA, Portuguese Association of Supported Employment* (PT)

P3 - *Fundación Tecnología Social* (ES)

P4 - *Emphasys Centre* (CY)

P5 - *Budakov Films* (BG)

P6 - *European Digital Learning Network* (IT)

OUR GOALS

1

Enhance access to digital jobs and professional VET programs in ICT for deaf and hard-of-hearing people.

2

Develop an analytical and descriptive database providing the main signs in International Sign related to the lexical domain of digital and ICT.

Whitepaper

Due to our constant devotion to research and dissemination of important information, the consortium developed a whitepaper in which we discuss some topics related to the project. More specifically, we wanted to share some details about micro learning, technologies used with microlearning and the Deaf community connected to that topic. Find out more on our webpage!

WHITE PAPER: MICROLEARNING

Webpage

Finally our webpage is online and up to date. APEA, FUNTESO, BUDAKOV and DLEARN are elaborating adequate usage scenarios for the core fields of application of the glossary's terms. Budakov Films, in particular, produces longer videos presenting personal stories D/deaf people, particularly in ICT professional contexts. Check out more on our website: [Scenarios – EU Digital Framework for Sign Languages \(digitalsignlanguage.eu\)](https://digitalsignlanguage.eu)

LTTA VIENNA

Finally the train the trainer activity will be held in Viena end of June. All partners will bring some trainers and d/Deaf trainers to learn how to use the platform and the implementation of the developed glossary. Some topics are still under construction, but till then everything will be ready to host a useful event that will help us gather also some feedbacks and evaluation from our trainers.

Stay up-to-date with project activities by joining our **Facebook** and **Instagram** communities to get all the latest developments from the project, learn more about Deafness and Sign languages and tell a friend. With our social media communities, we are keen to reach out to: d/Deaf ; VET educators and trainers ; students ; **employers**, managers, **leaders and** NGOs. *The more the merrier!*
