SURVEY RESULTS

The consortium conducted a survey for D/deaf and professionals working with them as part of the international EUDFSL project (EU Digital Framework for Sign Languages).

The aim of this project is to develop a complete and innovative linguistic framework for Sign Languages (SL) related to the semantic domain of digital environments and ICT.

HOW OFTEN PARTICANTS USE ICT

187 responses

134 Often

21 Regularly

23 Rarely

9 Never
